

THE
FRANKLIN BRAND

TOOLS

The Franklin Tool Company,
506 Genesee Street ☞ Buffalo, N. Y.

Gentlemen:

Our interests are mutual. We are manufacturing goods which we believe you can sell. We promise to give you good service, excellent quality at the right price in return for your confidence, merchandising and patronage.

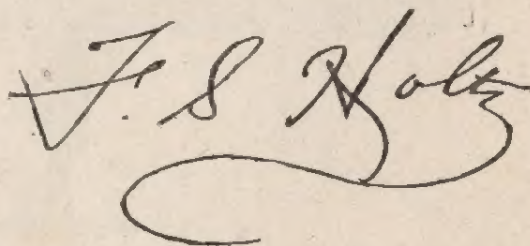

Many of you we have had the pleasure of serving for the past two years and we are pleased to say that we have grown and have found that the trade was anxious and waiting for just such a concern as we are striving to be.

Since our first effort with the No. 11½ hammer two years ago we have added several new articles to the line and we take pleasure in presenting these to you in this catalog and sincerely hope that they will receive your consideration and incorporation in your orders.

Our sixteen years experience (fourteen with other concerns and two as "The Franklin Tool Co.") will assure you of our ability to properly produce what we manufacture.

Give us a trial. We'll do the rest.

Sincerely

A handwritten signature in dark ink, reading "F. S. Holtz". The signature is written in a cursive style with a large, sweeping flourish at the end of the name.
